YOUR HELP IS NEEDED!

THE PAST

Kingsbury Hall was constructed in 1949, during the era of slide rules and drafting tables. The computer was still just a concept. Interactive learning and student projects were rare. Over the years, of course, things have changed—dramatically.

THE PRESENT

The College of Engineering and Physical Sciences has developed a reputation for hands-on research and innovative approaches to teaching and learning. The \$50 million Kingsbury “bricks and mortar” renovation project (\$44 million in State funds and another \$6 million being sought from alumni, friends and corporate partners) will produce a facility worthy of housing the high-quality education underway at the college and well-suited to the 21st century. But the college must raise another \$2.3 million by 2005 to cover instructional equipment and furniture for the building.

THE CHALLENGE

The New Kingsbury Hall Equipment Fund is being launched to help make this \$2.3 million fundraising effort a success. Major categories of needs include:

Laboratory equipment.....	\$800,000
Laboratory furniture.....	\$400,000
Interactive computer-based classrooms	\$300,000
Classroom furniture	\$400,000
Office furniture	\$400,000

Architect renderings of the proposed facilities in the new Kingsbury Hall. For more information on the Kingsbury project, visit our Web site: www.ceps.unh.edu/kingsbury.

GIVE TODAY—MAKE A DIFFERENCE FOR GENERATIONS TO COME.

A PIECE OF THE FUTURE

The College of Engineering and Physical Sciences has a proud past—and a promising future. With the help of loyal alums and friends, we can reach a new level of excellence. Support of the New Kingsbury Hall Equipment Fund by donating at one of three levels:

GOLD: \$1,000

SILVER: \$500

BRONZE: \$250

LASTING TESTIMONY

Gifts will be recognized with a name—your own or someone else’s—engraved on a nameplate (1 inch by 3.25 inches) and mounted on finished walnut plaques. Plaques will be displayed throughout the new building, lasting testimony of your support for the future of education.

INCREASED GIVING

You may choose to begin your giving at the bronze level. Should you decide to make a further donation at another time, you can be moved up to the silver or gold level. You may also increase your giving level with a company matching gift.

FOCUSED GIVING

Gifts can be earmarked for equipment for specific departments. Otherwise, they will be distributed for equipment as needed (at the discretion of the dean in consultation with the departments).
