

**Charles Russo, P.E.**  
**Consulting Engineer**  
**Estero, FL**

Charles Russo, P.E. is a dynamic engineering consultant to construction industry professionals. Charlie's engineering practice over nearly three decades involves diverse applications of structural engineering and material science. His professional experience includes designing new construction, repairing and modifying existing structures, investigating performance problems and structural failures, and assisting in resolving construction-related disputes. During his time with Simpson Gumpertz & Heger, he served in senior leadership appointments as Division Head of Structural Engineering in Washington, D.C. (2006-2012), President (2014-2016), and Chief Executive Officer (2017-2021).
