

University of New Hampshire

Assistant Professor of Electrical and Computer Engineering

The Department of Electrical and Computer Engineering at the University of New Hampshire invites applications for a tenure-track faculty position at the assistant professor level. The successful candidate will be expected to contribute research expertise in computer engineering. Preference will be given to candidates with expertise in embedded computing, with applications related, but not limited to, biomedical engineering, wearable electronics and sensors, human-computer interaction, and the internet-of-things. In addition to the research activities, the successful candidate will be expected to contribute to the teaching of computer engineering courses at the undergraduate and graduate levels. UNH actively creates an educational environment that fosters diversity, inclusion and quality engagement for all.

Candidates with outstanding credentials and demonstrated expertise in areas that complement the research efforts of the UNH ECE faculty will be considered. A Ph.D. in Computer Engineering, or Electrical Engineering, or an equivalent degree, is required. Preference will be given to candidates who have demonstrated the ability to teach a variety of ECE courses including laboratories. A commitment to sustaining and advancing the goals of the institution's diversity of students, faculty, and staff is required.

Applications will be reviewed immediately and continue until the position is filled. For full consideration, applications should be submitted by December 11, 2017. Please apply online at <https://jobs.usnh.edu> to receive full consideration for this position. Applicants should be prepared to upload the following documents when applying online: cover letter, resume/vita, three professional references with contact information, research statement and teaching philosophy.

The University of New Hampshire is a major research institution, providing comprehensive, high-quality undergraduate programs and graduate programs of distinction. The University of New Hampshire has a national and international agenda and holds land-grant, sea-grant and space-grant charters. UNH is located in Durham on a 188-acre campus, 60 miles north of Boston and 8 miles from the Atlantic coast, and is convenient to New Hampshire's lakes and mountains. There is a student enrollment of over 14,000 students, with a full-time faculty of about 600, offering 90 undergraduate and more than 70 graduate programs.

The University seeks excellence through diversity among its administrators, faculty, staff, and students. The university prohibits discrimination on the basis of race, color, religion, sex, age, national origin, sexual orientation, gender identity or expression, disability, veteran status, or marital status. Application by members of all underrepresented groups is encouraged.
