

Honors-in-Major Proposal

Department of Mathematics & Statistics

To earn Honors-in-Major in the Department of Mathematics & Statistics, you must maintain an overall GPA of at least 3.20, a GPA of at least 3.50 in major coursework and an unblemished record of academic integrity. In addition, the department requires that you add Honors Designation to three approved, 700-level MATH courses that will be used to satisfy major requirements. University requirements stipulate a grade of at least a B- in courses used for honors credit.

You are also required to enroll in MATH 799 and complete an honors thesis. This thesis will be planned and carried out with an advisor and approved by the departmental honors committee. We suggest that you propose your study by the end of your junior year and require that you do so no later than the add/drop deadline in the fall of your senior year.

Honors in-Major Program: In consultation with your academic adviser, complete the following chart indicating the courses you will use to satisfy Honors-in-Major requirements, as well as the semester in which you plan to take these course.
