Change the world...
You have the power

This summer, immerse yourself in the world of STEAM at an overnight camp for bright, bold and curious girls just like you. Join our learning squad of 30 teens and get ready to dive into a real-world problem, forge a solution together, and take your idea from concept to reality.

You will explore and build career and life skills:

• Robotics and Coding
• Research and Collaboration Skills
• Engineering and Creativity
• FUN!

For girls entering 8th-10th grade!

Foster lifelong friendships with other future world changers.

Think on your feet and expand your imagination through innovative challenges.

Prepare for future careers in STEM alongside strong female role models working in the field.
