

## INTENT TO MINOR FORM

The student is to complete this form as early as possible in the academic career. A list of approved minors is available at each college dean's office.

**A minor usually consists of 20 or more semester hours of credit with a grade of C- or better and a 2.00 grade point average in courses that the minor department approves. Courses taken on a Pass/Fail basis may not be used for a minor. No more than 8.0 credits used by the student to satisfy major requirements may be used for the minor.**

The student must have the Intent to Minor approved by his/her major adviser and by the minor supervisor. The student will then present this completed form to his/her college dean for approval.

*The minor will appear on the student's academic record when all the necessary courses have been successfully completed.*
