

# UNH CIVIL & ENVIRONMENTAL ENGINEERING

## Weekly Announcements & Events

### MESSAGE FROM THE CHAIR

#### **Welcome Students!**

Dear CEE Students,

Welcome Back to UNH - In whatever mode you are here!

Your classes and campus may look different but our goal to provide you with a top-notch civil and environmental engineering education remains the same. Your faculty, instructors and teaching assistants are available to help you via ZOOM and limited face-to-face interactions. Please check your CANVAS sites for each of your courses daily for content delivery, office hours and assignment submissions information and updates. Every Monday, you will receive a CEE Weekly Newsletter via email and as an announcement (as this) that will include weekly events, announcements, spotlights and other department happenings. Have a great 1st week of classes!

Be Well,  
Professor Bell

## IN THE SPOTLIGHT!

### Graduate Student Feature: Tracking Emerging Contaminants in NH

UNH graduate student Cassidy Yates is helping to study the way we track and manage new contaminants in New Hampshire waters. A growing concern around the world and...

Tucker misses you all!  
He has been busy since lockdown taking care of his family. He has turned into quite the frisbie catcher, enjoys helping Dad water the plants & digging in the garden. Tucker hopes to be back later in the semester.

Congratulations to Darline Balen, recent graduate, she received 2nd place Master's Thesis 2020 AWWA Achievement Award!
