## IN THE SPOTLIGHT!

### UNH researchers studying UV technology to disinfect N95 masks

Researchers at the University of New Hampshire are learning how to use ultraviolet light to disinfect

Dr. Malley would like to give a shout out to the students who worked so hard on the UV disinfection work for COVID-19 this Summer. Here are some articles that explains the UNH CoRE funded work these kids did:

### Ultraviolet rays could aid school disinfection, researchers say

Exposing the surfaces of objects to this type of technology is an effective way to fight coronavirus.

.....

Petey Elmer Malley hopes your 1st week was good! His COVID-19 Test was hilarious - imagine swabbing that nose!

PT is glad you're wearing masks and remember to say "HI" as you pass his Gregg 344 office. He wants to remind you "if HE can do it YOU can do it!"

~ Petey & Dr. M

.....

# COVID Testing

After a busy summer of preparing, we are happy to have you back with your energy and enthusiasm for learning. Thank you for your compliance with the COVID testing and safety protocols.

Remember to submit your COVID swab-tests on Monday am as designated. You can drop it off at the West Edge Parking Lot: drive-up drop box, you don't need to come to Kingsbury. It is important that we stay on schedule for the efficiency and effectiveness of the UNH testing center.

Your partnership in all COVID protocol is essential for success. #unhtogether.

*Please check your my WildcatPass for accuracy and completeness daily. You can access your Wildcat through <https://covid-19.unh.edu/> - it is the 4th link on the page. If you have any questions, email [covid@unh.edu](mailto:covid@unh.edu) and include your name, student ID number, date of your last test and the issue you are having.*

For Covid updates, please visit <https://www.unh.edu/coronavirus#news>
