MESSAGE FROM CEE

Dear Students,

*We may all be feeling a little sluggish with the time change but this means Spring is almost here!!!
Time for renewal and with the vaccine rolling out full force we can see the light ahead!*

We're not in the clear just yet, stay vigilant and be sure to keep your wildcat pass current.

*Take advantage of the many resources UNH offers -
<https://www.unh.edu/pacs/resources>*

Reach out if you need us, we're here for you!

Have a great week & Happy St. Patrick's Day!

IMPORTANT DATES

PLEASE REFER TO THE REGISTRAR'S CALENDAR FOR MORE INFORMATION [HTTPS://WWW.UNH.EDU/REGISTRAR](https://www.unh.edu/registrar)

March 14th - Daylight Savings Begins!

March 17th - St. Patrick's Day (Irish)

March 19th - Due date for completion of undergrad coursework resolving Fall 2020/JTerm 2021 IC grades

Half Term I Classes end

Last Day to completely withdraw from UNH without receiving grades of WP or WF

March 19th - Mid-Semester, NO Classes

March 22nd - Half Term II classes begin., Summer Sessions registration begins

New Year/Spring Chaitra Navaratri (Hindu)

March 27th - Passover begins (Jewish)

March 29th - Last Day for undergraduates to submit Intent-to-graduate for May, 2021!

Holi (Hindu)

.....

CEE Virtual Lunch & Learn Series Coming

Thursdays in April @ 12:30 - 2:00 pm,

for more info. visit - <https://ceps.unh.edu/cee/>

All are welcome to attend, this is a FREE event!

We will end the Series with our 8th Annual Pedro de Alba Lecture!

UNH Civil & Environmental Geotechnical Engineering Group Presents

The 8th Annual Pedro de Alba Lecture

Thursday, April 29, 2021, 6:30 pm. (EST)

Join : <https://unh.zoom.us/j/93518289807>

CEE Professor Jean Benoît will be discussing the ongoing work with the Smart Rock technology, a brainchild of Professor de Alba. The presentation will review the development of this unique sensor and demonstrate through current and past projects how it can help better understand landslide mechanisms and rockfalls.

Professor Pedro de Alba joined the Dept. of Civil Engineering at UNH in 1977. In his 33 years at UNH he taught over 12 courses in geotechnical engineering at both undergraduate and graduate levels. Professor de Alba was an outstanding teacher, a scholar and a true gentleman. He was a mentor and role model to his students and colleagues. His professional interests were in experimental techniques for measuring the dynamic response of soils, especially residual strength of liquefied sand. Professionally he was involved with several major research projects. He was a member of ASCE, EERI and ASTM, and also co-editor and found of the earthquake engineering journal, Sismodinamica. His dedication to the engineering profession was truly exemplary.

IN THE SPOTLIGHT!

UNH TODAY

**Cyndee Gruden named
Dean of CEPS!**
